Sophisticated online tool for honing poker skills
PokerOffice is a bundle of software
that can help poker players track specific moves , during gameplay.

This can be an
excellent tool for those who are just learning or during times when a
statistical
analysis will help to improve a specific strategy. Advanced algori
thms follow multiple
metrics and these can thereafter be examined by , the user. This ent
ire package is
essentially a very useful instrument which can be used alongside an ex

isting
strategy.
Main Features , and Uses
To be clear, PokerOffice is not meant to serve as a
guideline in and of itself. It is rather , an excellent addition whe

n more detailed
information is required. Some of the factors that it will record inclu
de player
rankings, , the size and odds of a pot and how often an opponent wil
l flop during a given
number of hands. , We should note here that all of this data is pres
ented in a live
format. This system will also monitor , the movements of the user.&
