A pipeline explosion in 2024 had already reduced capacity to move gas from Texas and neighboring states, where much of California's supply comes with. Additionally, the past few months in California have been especially cold and creating an unusual high demand for heating. What's more, Fueling California's High Natural Gas Prices is a challenge. In California, natural gas prices are compressed natural gas (CNG) at \$1.20 BTU.

Description: The global Compressed Natural Gas (CNG) market size was valued at USD 40,473.37 million in 2024 and is expected to expand at a CAGR of 27.64% during the forecast period.

Compressed natural gas (CNG) is a fuel used in various applications. The market outlook is positive, with a predicted growth rate of 27.64% during the forecast period. This is due to the increasing demand for compressed natural gas in various industries.
