<p>Surely people who take poker seriously will find their way themselves t o Unibet in 🌝 one way or another even without people posting how soft t he site is.As Unibet is still a growing site its 🌝 imo more important t o let the player pool grow with whoever wants to play on it and this will result 🌝 in more active games,Unibet Poker getting bigger (as they are still) Tj T* BT /F

e rec players through publicity and so on.And lets be honest, its not like every ex HUD 🌝 reg is now suddenly going to crush stakes on Unibet where the y cant play with any extra software.No idea why 🌝 people are always so concerned about bots on smaller sites or on sites where u can play anonymous. Su re there 🌝 is potential but on which site isnt there a potential for bo ts nowadays? One almost won the TCOOP 08 on 🌝 Stars... U are afraid of moving to another poker site incase u MIGHT get scammed by bots, while u probabl y 🌝 are getting scammed by bots on a daily/weekly base on a site like P S. And I dont blame PS for 🌝 all of this as its the way it is now in th e time we live in with all the technology 🌝 available.And Unibet has ch anged things in the past on their software to prevent bots/aiding software to wo rk on their platform 🌝 and Im sure they will keep doing this in the fut ure.And to answer the thread question, yes its definitely worth 🌝 switc hing over if u want to play microstakes.</p>
